Telephone- and Meetingbooths

mute_labs

Your quiet space in the open-plan office

Be it for a phone call, a meeting or just to concentrate without distraction – we give you peace and silence.

Open-plan offices are loud and full of distractions. Budgets are tight. This is why we developed an affordable phone booth: SOLO. For months, we scrutinized, reinvented and perfected every little detail.

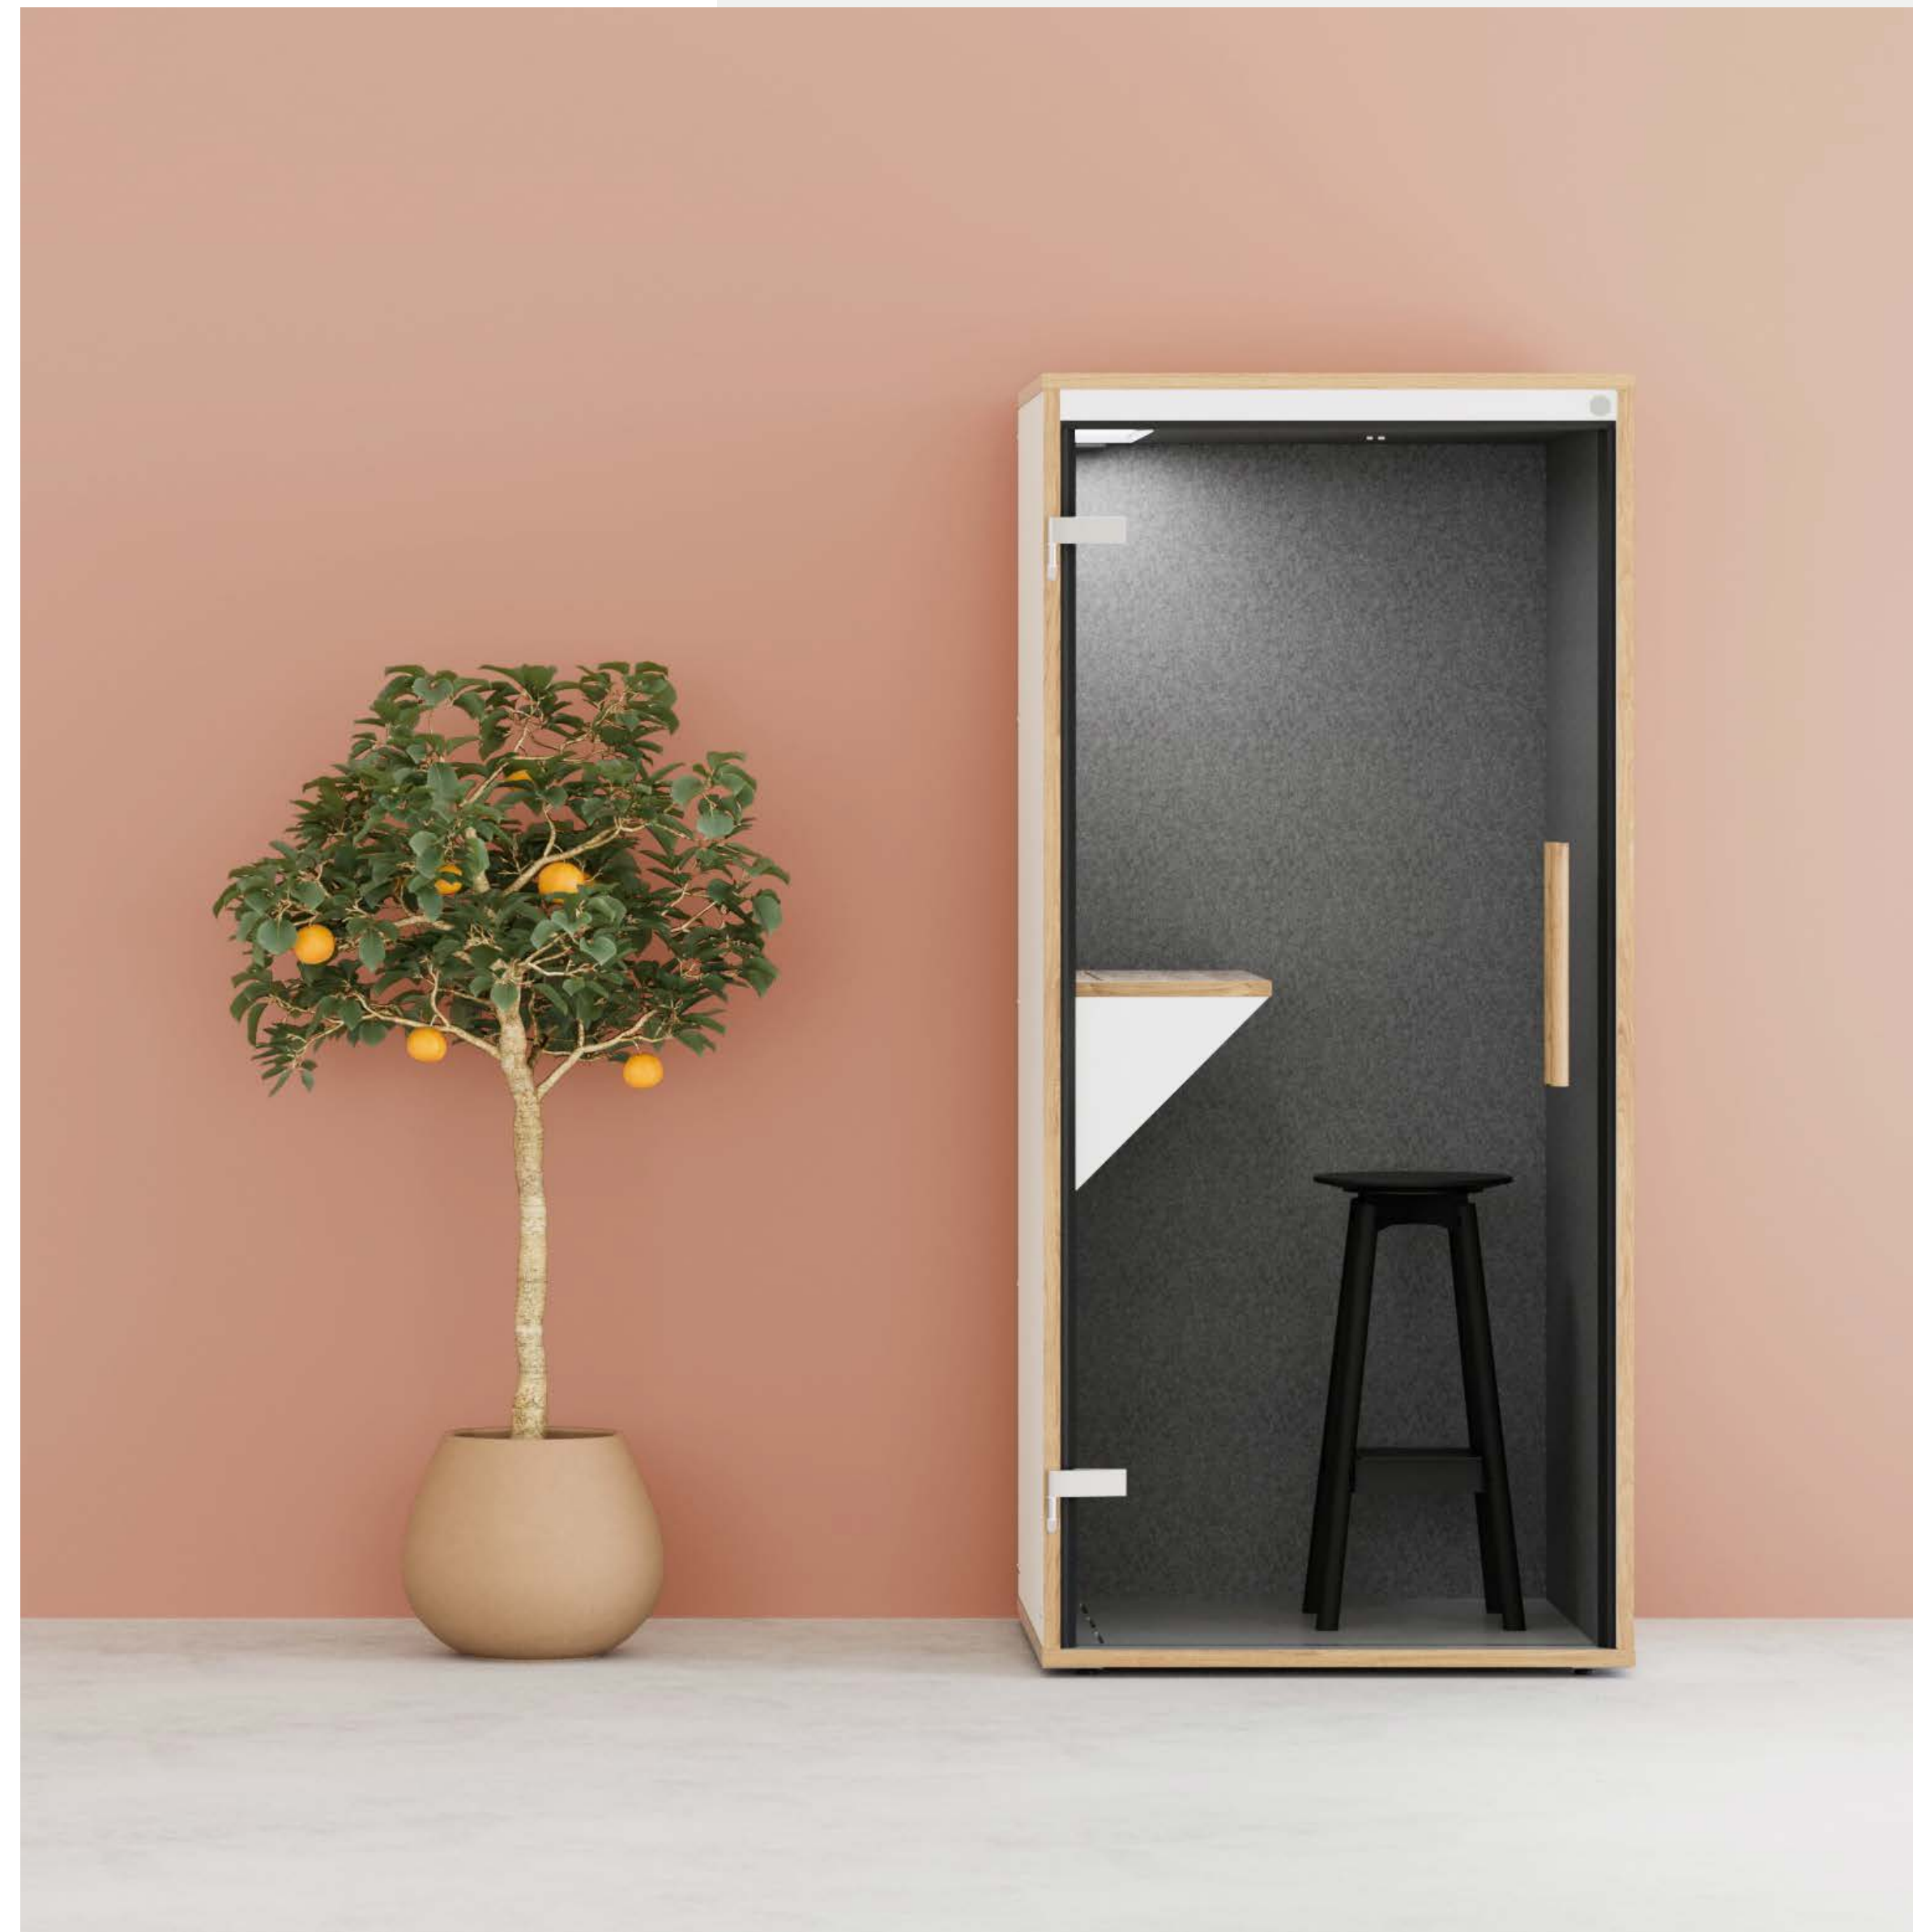

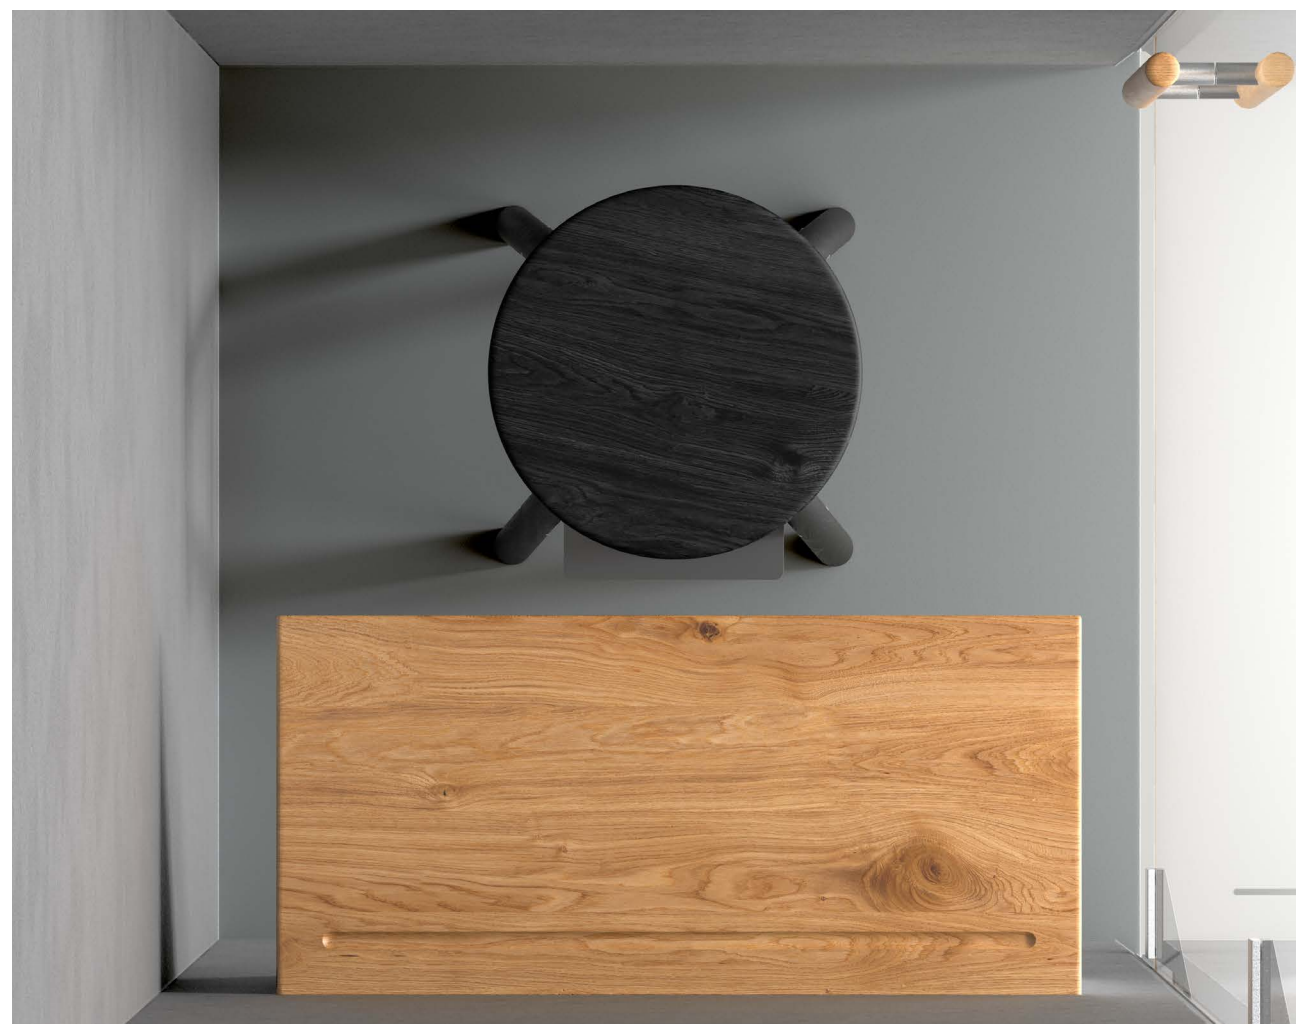

It has been an amazing journey and we are profoundly proud of the result.

Our shared vision is to create affordable quiet spaces for you – so you can focus on what's really important. To this end, we give our best every day.

Sustainability

For every booth sold we plant a tree

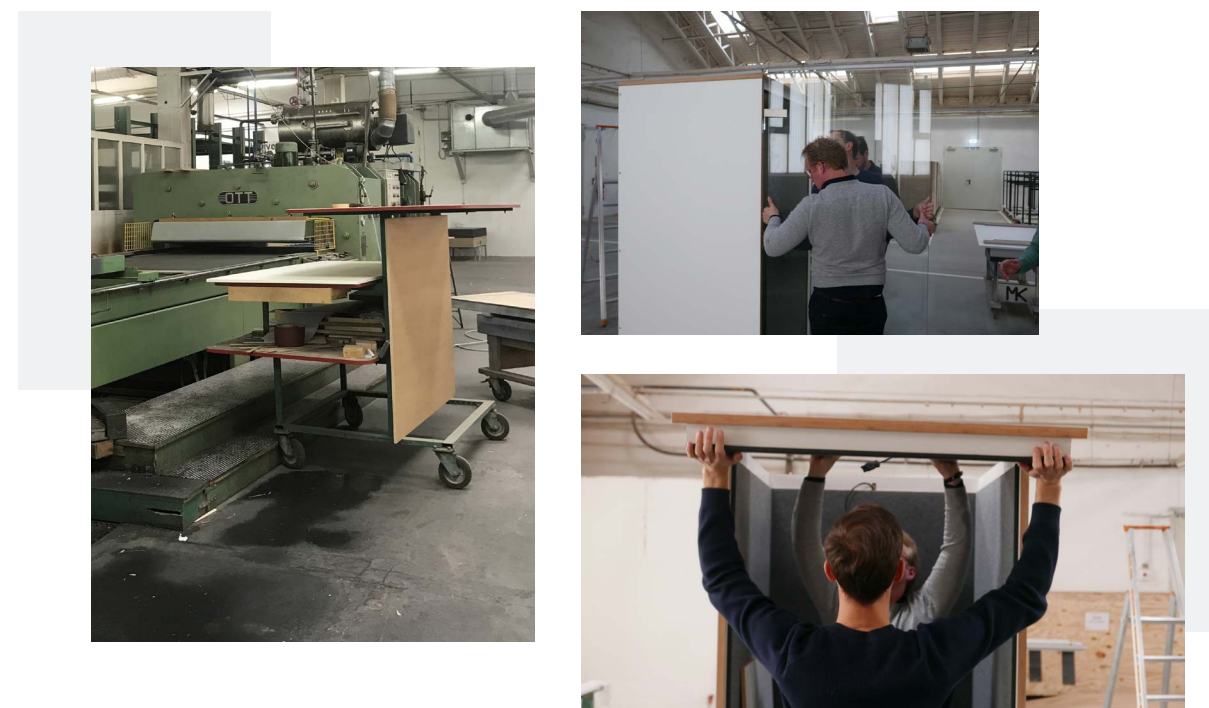

Sustainable materials

To protect the environment, we avoid unnecessary plastic. The wood we use comes from sustainable forestry and is certified according to the 'FCS' standards of the 'PEFC' and the new ISO 38200 : 2018. Our acoustic felt is made from recycled PET bottles.

Made in Germany

We manufacture 100% in Germany. This has two reasons: For one, it's the only way we can guarantee our quality and manufacturing standards. Secondly, with our manufacturing site being located in the heart of Germany (and Europe) we can achieve short delivery distances and a better CO2 footprint.

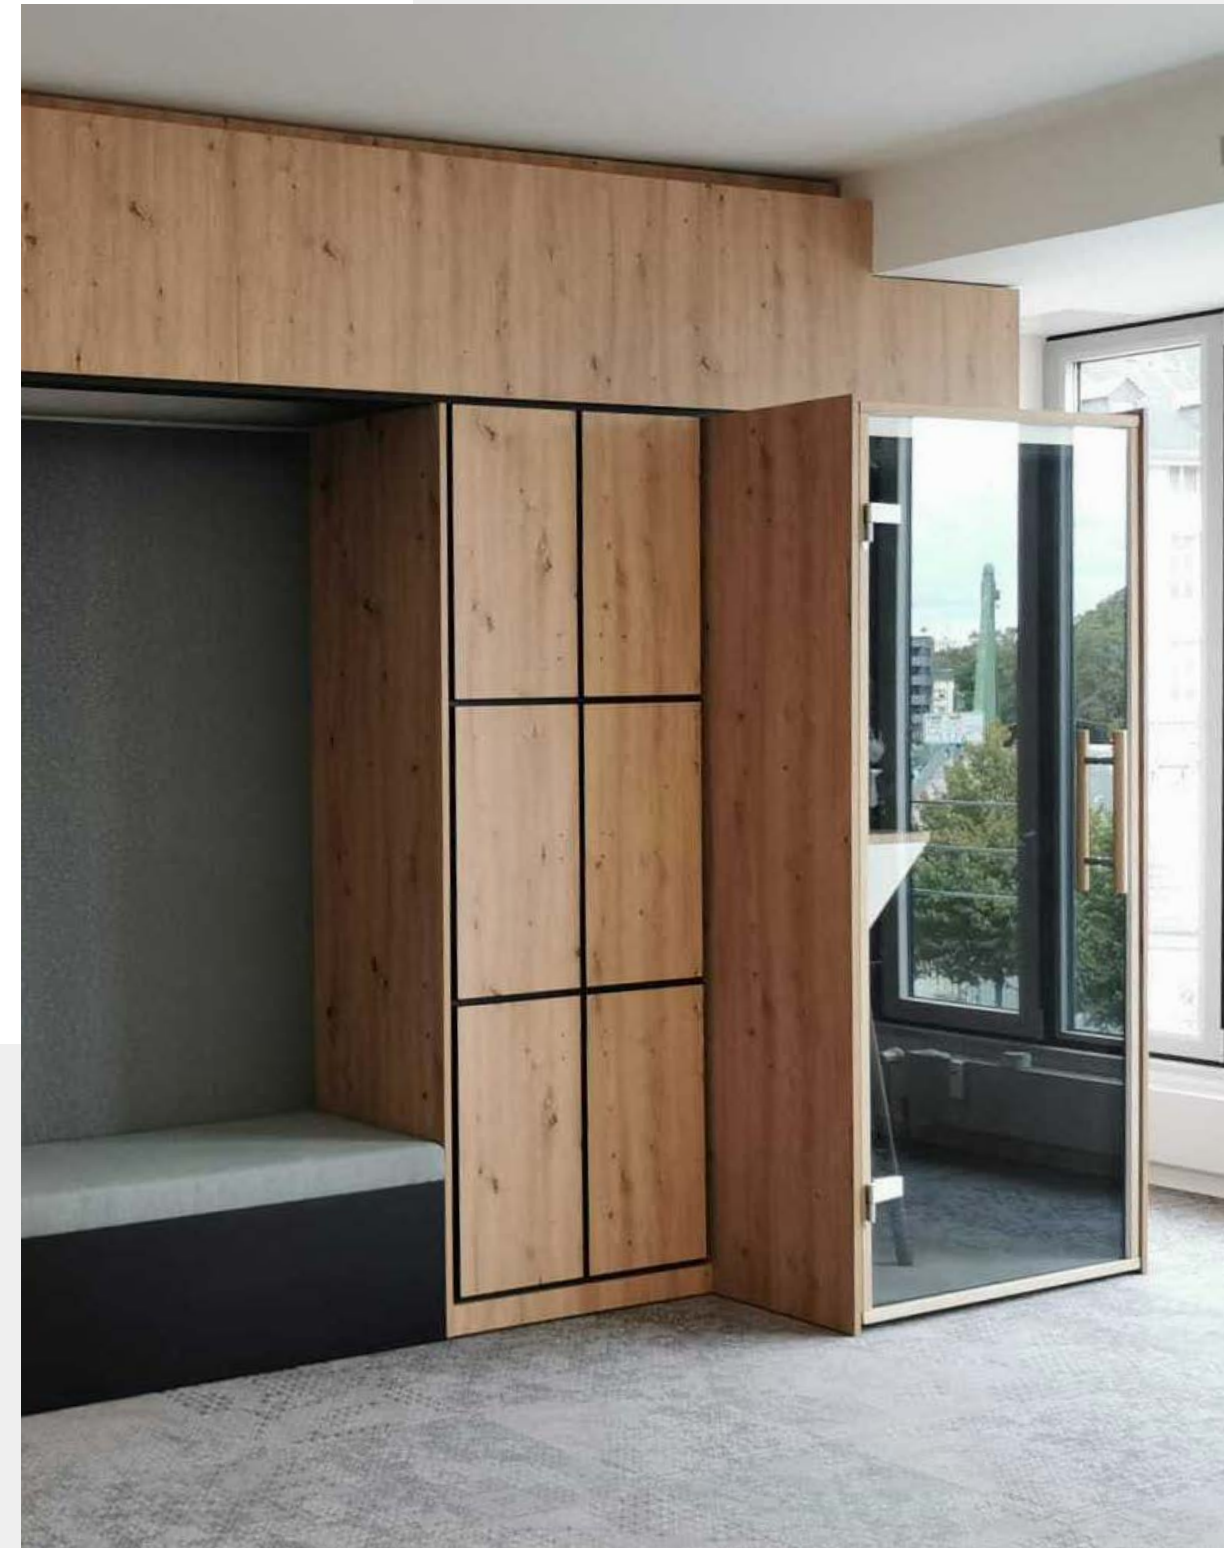

One Booth – One Tree

Since a large part of our phone booths is made of wood, we have created the campaign 'One Booth - One Tree': Together as a team, we put on our rubber boots and plant a tree for every booth sold.
